Work History

Feb 2018 - Jul 2020

Full Stack Senior Developer
NoLegalTech, Remote

NoLegalTech is a Legaltech agency specialized in both legal solutions for technological companies and developing technology for legal firms (mostly web apps). The latter was my main responsibility so my work included: inception, design, test, code, speaking at public talks, growing teams, organizing workflows, organizing events, etc.

Technologies: php, node, Symfony, bootstrap, wordpress, ...

Sep 2018 - Jun 2020

Chess Instructor
Escola de Xadrez Millarengo Cultura, Milladoiro

I worked as a Chess Instructor for the chess club, doing lessons from Monday to Friday to all ranges of age (5yo - ~50yo) and level (0 - 2000 FIDE). Being myself the highest-rated player on the club (>2000 FIDE) I also competed as first board and captain for these years with a number of competition successes.

Nov 2014 - Dec 2017

Full Stack Senior Developer
SetPay, Santiago de Compostela

SetPay was a Fintech company developing technology for low-cost credit card readers for small merchants to be able to easily charge their customers anywhere anytime. In a team of ~10 people (5 developers) with a very agile culture and no specialists, I participated (as any other team member) in all parts of the development of the product (design, test, code, ...). Given my experience, I had the additional role of Scrum Master in the team.

Technologies: Angular, Spring, node, IBM Cloud, microservices, docker, ...

Mar 2010 - Oct 2014

CEO/Founder

Agil-AZ S.L., Santiago de Compostela

I was one of the Lead Developers at this software craftsmanship startup company. With a small (5 people) but highly skilled team, we devoted our work to growing agile teams and crafting software for many different customers in various fields. We've been very involved in the events and works of the Agile Spain community. I've done a number of public speeches, organized a lot of technical events and public talks (open spaces, coding dojos, agile talks, workshops, online technical debates, etc).

Technologies: Symfony, node, Play Framework, Spring, redis, Prestashop, Wordpress, Joomla, MongoDB, MySQL, Postgres, bootstrap, ...

Nov 2011 - Feb 2013

Founder and Software Sculptor

Hermanos Karapatrov, Santiago de Compostela

Hermanos Karapatrov was a small (10 people) media agency devoted to crafting audiovisual contents and creative technology for events, campaigns, and videogames. My part on it was mostly on the software development area but I also contributed to the creative processes and organizational workflow.

Technologies: php, javascript, OpenGL, OpenCV, MySQL, ...

Oct 2008 - Jan 2010

Head of IT Department

Trabeculae E.B.T., Ourense

As the head of the IT Department I strategical responsibilities, but I devoted most of my time to developing 3D, image processing, and medical software.

Technologies: java, javascript, DICOM, 3D modeling, MySQL, ...

Education
